

Results of Jim's 2012 Study Issue Survey

Introduction

The survey was conducted between January 12th and January 29rd, 2012. 84 responses were received. Note that OCA 12-02 (Whistleblower Ordinance) was added to the list of potential study issues by staff after some participants had already voted. This should be taken into account when viewing the results for the study issues for the Office of the City Attorney.

The survey attempted to follow the voting mechanism that Council uses in ranking study issues. Participants were provided with the study issue overviews, as described in the council overview sheets, with links to the full study issue write-ups. Participants were first asked to indicate which study issues should be dropped. Of what remained, participants were asked to indicate which study issues should be deferred until next year. Of what remained, participants were asked to rank their top four choices (or fewer, if a department had less than four study issues). The raw votes cast are on the final page of the summary. The survey may be viewed at <http://www.dweb.org/cgi-bin/survey.pl>.

Each department is broken down into four results. The first set of results shows the study issues ordered by respondents' preference for dropping issues, with items most favored to be dropped listed first. The second set shows the preference for deferring issues, with items most favored to be deferred listed first. Note that since respondents first voted for dropping issues and then deferring, items favored to be dropped score low on the deferral list. As such, the best measure of a study issue's unpopularity is its drop percentage plus its deferral percentage, resulting in a "rank/do not rank" value. Towards that end, the "Don't Rank %" provided in the raw results may be useful as a measure of a study issue's public support.

The third and fourth sets indicate the preferred ranking order of the study issues, in two ways.

In the "drop-weighted ranking", study issues are ranked, but "drop" and "defer" votes are applied as a negative value. As such, the "drop-weighted ranking" attempts to represent the collective opinion of all survey participants.

In the "rank only" ranking, study issues are ranked ignoring all "drop" and "defer" votes. As such, the "ignore drop/defer votes" ranking is best described as "when participants value an issue, how strongly they value it".

Overall trends

Respondents clearly favored dropping or deferring study issues to a much greater extent than in past years. 20 of 39 study issues received responses where half or more votes were to drop or defer the issues. Only a few study issues garnered strong overall support.

Overall most popular issues

#1	CDD12-09	Pedestrian Plans for ITR Areas
#2	CDD12-06	Regulations for Telecommunication Facilities Located in the Public Right of Way
#3 (tie)	CDD12-05	Food Truck Locations and Operation Requirements
#3 (tie)	DPW12-05	Downtown Parking and Maintenance Management Program
#5	CDD12-10	Consideration of Non-residential Parking Requirements

Overall least popular issues

#1 (tie)	CDD12-01	Requiring Solar Panel Installation as Part of Re-roofing Projects
#1 (tie)	LCS09-01	Explore Opportunities to Develop a Community Theatre Based in Downtown Sunnyvale
#3	CDD12-02	Possible Nomination of Non-Residential Properties to the Heritage Resource Inventory
#4 (tie)	OCM12-01	Consider the Viability of Developing a Financial/economic Based Sister City Relationship with an Overseas Entity
#4 (tie)	CDD12-04	Recognition of the Technological Events and Innovations of Sunnyvale

Community Development Department

Overview

By far, CDD12-09 "Pedestrian Plans for ITR Areas" was the most popular of CDD issues (in fact, it was the highest-rated of any study issue). CDD12-05, CDD12-06, and CDD12-10 all demonstrated support (and were in the top five, overall). By far, CDD12-01 was the least popular of all CDD issues (in fact, it was tied with LCS09-01 for the least popular of any study issue). Only 7% of respondents ranked CDD12-01 as one of their top four CDD issues, with 2/3 recommending dropping the issue.
